MACHINERY FOR DRAWING BRASS-WIRE AND TUBING.

Rivet-Machines. Cartridge and Special Machinery.

Waterbury, Conn. Nov 23, 1892

Col O C Osbyshell

Supt of U. S. Mint at Phil

Dear Sir:

Your letter of 22<sup>nd</sup> is received. Please have our invoices returned and we will have corrected ones sent - The writer overlooked the fact that your order specified that the price was to be the same as last and I remembered I had written Mr James under date of Jan'y 21, 1892, that the price would be 500.<sup>00</sup> net. We have lost money on these presses, having taken pains to build them right and enclose Memo of cost to show you we only want to get a small profit and even at 500.<sup>00</sup> would barely get back our outlay.

We are sorry to have caused the trouble of returning invoices & it was entirely the writers fault in not noting the wording of your letter accompanying the order. Very respectfully, W E Fulton
